«PROFILE»

I am humanitarian health worker who has been in the field for the last 10 years with various levels of managerial and hospital setting, this has allowed me to accumulate immense experience in planning, implementing, and execution of humanitarian related health programs in south and central region of Somalia. i am hard working, self-motivated, creative, honest, responsible team worker with interpersonal analytical and leadership skills, also I possess proven ability to problem solving and adapting to challenging situation, I am goal driven to achieve the best result for the most vulnerable, marginalized, women and children living in conflicts, and the fragile context in any African and developing countries. I'm very much interested in promoting low-cost and high-impact interventions in accelerating health in different fields, including primary health care programme, mother and child health and health emergencies. I have a wide experience in developing contingency plans and responding to an emergency, post-conflict, early recovery and developmental programming by applying best practices and evidence.

PROFESSIONAL EXPERIENCES

Jan 2021- april 2022 Program manager at SAF UK international, Mogadishu

Health Programme Manager

Key Responsibilities: Program designing, Planning and Implementation

- I oversee the implementation of primary health care projects,gender and protection to ensure that beneficiary participation is enhanced. Develop, lead, monitor and evaluate the assigned health project(s). Effectively manage and report on projects in line with the objectives, time frame and budget with a focus on health system strengthening, training and coordination. Provide technical support, leadership and strategic direction. Encourage beneficiary participation, liaise with stakeholders, manage and train health staff and anticipate, plan, and contribute to the development of health project proposals and reports.
- Coordinate the service delivery activities of the primary care, ensuring an integrated, collaborative client-centered approach.
- Ensure that the routine vaccines are properly provided to under five children and women of child bear age for vaccine preventable diseases, and vaccines properly stored.
- Promote and support community awareness on health through community health workers and mass media.
- Collaborate with the Team Lead-Primary Health Administration to facilitate optimal communication between primary health care and admin staff and to ensure an effective, coordinated work flow.

- Provide leadership and support for staff to enhance the effective use of the electronic health records system. Work with the Data Management Coordinator and peer trainers to identify training needs.
- Identify training needs and conduct cascade training to all health and nutrition staff.
- Develop an annual work plan for the primary health care program, in collaboration with the program Director.
- Develop agendas for regular staff meetings in collaboration with staff; ensure that minutes of meetings are maintained and circulated to all stakeholders.

Quality Assurance and Improvement

- Regularly review and analyze service delivery and other relevant data. Provide interpretive information to staff and management.
- Participate and support monitoring and evaluation planning activities.
- Coordinate chart audits and other quality assurance activities.

Human Resource Management

- Support, coach and supervise assigned staff, including the development and monitoring of goals and individual work plans.
- Provide support and guidance to staff in the areas of effective communication and conflict-resolution.
- Participate in the recruitment and hiring of primary health care staff.
- In collaboration with the program Director of Administration, coordinate the orientation and training of new primary health care staff.

Financial Management and Control

- Participate in annual budget development process.
- Monitor assigned operating budgets and those expenditures remain within budget.
- Review and approve expenditures within assigned budget.
